SUBJECT: Design
Development Manual Letter No. 6, 2004
Computer Stored Pay Items

Questions concerning the distribution of revisions to bid items should be directed to General Headquarters, Jeff Campbell (573) 526-2920 or Joe Jones (573) 751-3813.

NOTE	EXPLANATION
1	The following listing shows item numbers in the computer pay items database (containing both English and Metric pay items) that were added, revised or made obsolete between April 12 and July 1, 2004. The following pay item changes are effective for jobs to be let after October 1, 2004. A complete listing of computer stored pay items can also be found at the following web site. http://www.modot.org/business/contractor_resources/biditemslisting.htm Also at this web site is a brief summary of revisions made to the pay items.
2	For pay item revisions that involve only a change in item description, the item number will not change. For a material or process change, or a change in units or type, that will affect the price history of an item, an alphanumeric character will be added at the end of the existing number to indicate a revised item. For example, 403-60.00, if revised would become 403-60.00A. This process eliminates creating an excessive amount of new numbers in the database.
